Ellijay, GA 30540  
(800) 521-5647

*Quality isn't Expensive...It's Priceless!*

# FIRESIDE LOG HOMES

*...building quality since 1984*

## *Think "Inside" the Log*

Most log manufacturers have considered protection for the outside surface of the log, but *only Fireside offers the solution that protects the entire log from the inside out.*

Our patented "**Process 2000**" Wood Treatment System pressure injects each log with preservatives, borate and other biocides that are environmentally friendly.

This insures a "**Worry Free**" log for our customers. No need for settling systems that demand attention, just regular wood maintenance is all that is required for a great looking, natural home.
